EDUCATION

• Sahyadri College of Engineering and Management   2022 - present
Bachelor of Engineering in Computer Science (Data Science)   CGPA:7.2

St. Sebastian P.U. College ,Permannur   2022
Pre-University- PCMC   Grade:74

PROJECTS

• Garment Factory Management System: ⌘

Technologies: MySQL, PHP, HTML, CSS

– Developed a web-based management system to handle factory operations including employee tracking, inventory control, and order processing.
– Built the frontend using HTML and CSS, and connected it to a PHP backend for dynamic data interaction.
– Designed and managed a MySQL database to perform CRUD operations and ensure efficient data storage and retrieval.

• Contact Directory: ⌘

Technologies: HTML, CSS, JavaScript,Node.js, Express.js,MongoDB

– Developed a web-based contact management system to perform CRUD operations (Create, Read, Update, Delete) on phonebook records.
– Built the frontend using HTML, CSS, and JavaScript, and implemented RESTful APIs with Node.js and Express.js for backend logic.
– Designed and integrated a MongoDB to store contact information, ensuring efficient data retrieval and scalability.

• AI Note-Taking Assistant: ⌘

Technologies: Flask, OpenAI Whisper & GPT, SQLite, HTML, CSS

– Developed a smart assistant that converts recorded lectures or meetings into structured notes using OpenAI Whisper for transcription and GPT for summarization.
– Designed a responsive web app with audio recording, transcript editing, and PDF export features using Flask and SQLite for storage.
– Streamlined the note-taking process, improving accessibility and productivity for students and professionals.

SKILLS

- **Programming Languages:** C,C++ , SQL, Python
- **Frontend:** HTML, CSS
- **Backend and DB:** NodeJS, ExpressJS, MongoDB, MySQL
- **Platforms:** Windows
- **Soft Skills:** Communication, Teamwork, Adaptability, Problem-Solving, Time Management, Active Listening, Quick learner.
